

SUMMER TOUCH

A line of lightweight cosmetics to help you enjoy radiant, sun-kissed skin all year round - just like in the middle of summer. Gradually build an even and natural-looking tan. The formulas, rich in active care ingredients, take excellent care of your skin.

BRONZING BODY BALM

Are you looking to enjoy a holiday tan all year round?

If you like your skin to be beautifully tanned at any time of the year, but want to avoid exposing it to the sun or using a tanning bed, reach for our Bronzing Body Balm. It's the essence of summer in a lightweight cosmetic, formulated with naturally derived ingredients.

BRONZING BODY BALM

What you'll love about it:

the fact that it allows you to build your dream tan, with results visible after the first application. The lotion provides even coverage - without streaks, spots or orange tones. It is ideal for all skin types and skin tones.

What else we are proud of:

thanks to its wealth of active ingredients, our lotion takes excellent care of the skin condition. It moisturises, regenerates and nourishes it. It restores its softness, smoothness and elasticity. In addition, it increases the synthesis of melanin, improving the skin's natural colour, and supports its natural protection against free radicals and the adverse effects of the sun's rays.

Why you won't swap it for any other:

its light, creamy texture guarantees easy and pleasant application. It is quickly absorbed. Does not stain clothes or bedding.

What it smells like:

juicy lime, sweet vanilla and exotic coconut.

How to use it:

in the evening, apply the lotion to dry and cleansed skin. Spread evenly, applying a smaller amount to elbows, knees and ankles. Wash hands after application. First effects are visible after 4 hours. You can apply it daily until the desired tan is achieved. The day before the first application, perform a body scrub. Do not apply other products immediately before or after applying the lotion. After application, avoid skin contact with water. We recommend performing an allergy test before first use.

What do users say?

100% of respondents* confirmed that the lotion gives the skin the effect of a golden tan in a natural shade and perfectly conditions, revitalises and provides a radiant appearance.

In our balm,

you will find active ingredients to take care of the condition of your skin, including a plant-based moisturising complex, brown algae extract, coconut, sesame, olive, carrot seed and sunflower oils, shea and cocoa butter, coconut milk, squalane and panthenol.

* Based on an independent application and use study conducted on a group of 25 people.

Due to the ingredients contained in the lotion, the cosmetic may change colour and scent over time. However, this has no effect on its performance and effectiveness.

BRONZING ELIXIR

Want to enjoy sun-kissed skin all year round?

If you like your skin to be beautifully tanned at any time of the year, reach for our Bronzing Elixir for face, neck and décolleté.

It's the essence of summer in the form of a lightweight gel, so you can enjoy a natural-looking tan without the need for sun exposure.

BRONZING ELIXIR FOR FACE, NECK AND DÉCOLLETÉ

What you'll love it for:

for allowing you to build the tan of your dreams, with results visible after the first application. It provides even coverage - without streaks, spots or orange tones. It is ideal for all skin types and skin tones.

What else we are proud of:

thanks to its skincare ingredients, the elixir takes excellent care of the skin's condition. It contains brown algae extract, aloe vera gel, coconut milk, betaine, hyaluronic acid salt and glycerine. It is great for moisturising and regenerating the skin, leaving it smooth and supple.

Why you won't swap it for any other:

thanks to its light, gel-like texture, it guarantees an easy and pleasant application. It absorbs quickly without leaving a greasy or sticky film on the skin.

What it smells like:

juicy lime, sweet vanilla and exotic coconut.

What do users say?

100% of respondents* confirmed that our elixir gives a natural, sun-kissed look all year round - without harmful exposure to the sun, provides the skin with a beautiful tan and takes excellent care of the skin.

What else is worth knowing about it:

our elixir increases the synthesis of melanin, improving the skin's natural colour, and supports its natural protection against free radicals and the adverse effects of the sun's rays.

How to use it:

in the evening, apply a small amount to dry and cleansed skin on the face, neck and décolleté. Spread evenly, avoiding the eye area. For a softer effect, mix with a face cream. Wash hands after application. First effects are visible after 4 hours. Do not apply other products immediately before or after applying the elixir. Avoid skin contact with water after application. We recommend a sensitisation test before first use.

* Based on independent application tests on a group of 25 people.

Due to the ingredients contained in the elixir, the cosmetic may change colour and scent over time. However, this has no effect on its performance and effectiveness.
